# **PROFILE**

Hello! My name is Muzammil S, and I am currently pursuing my Bachelor of Computer Applications (BCA). I have a strong interest in technology, especially in the field of web development. I'm learning programming languages like Python and Java, and I'm also working with tools like Bootstrap to design and build userfriendly websites.

Along with my academic journey, I'm focused on personal development, including improving my fitness and learning to manage my time effectively. I believe in continuous learning and enjoy exploring new skills that help me grow both personally and professionally.
